II. Taking the Duolingo English Test - CMU-Africa English Test Assessment Process

BEFORE THE TEST

- **I applied a few weeks ago but still have not received my DET coupon. When should I expect it?**

CMU-Africa covers English test fees once per applicant. If we have already covered your test fees once, you will either have to take a new test at your own cost or let us know if we should use your previous test scores if they are still valid.

If you qualify for the DET fee waiver, please be patient. We are still processing your application, and you will be notified in time.

- **I received a DET coupon, but when I tried to use it for the test, I was notified that it had already been used. Is there a way you can send me a new one?**

Please reach out to our [Admissions Office](#), and they will be able to provide you with a working coupon.

- **I have received a DET coupon but cannot access a stable internet connection. Would it be possible for me to take the test from CMU-Africa?**

We do not allow applicants to take the test from the CMU-Africa facilities. We encourage you to do your best to secure a location with a stable internet connection of at least 2 Mbps download speed and 1 Mbps upload speed and try again.

DURING THE TEST

- **I received a message that my session timed out while taking the DET test. What does it mean, and what should I do?**

This message appears when a test-taker is using a slow or unstable internet connection, which slows down the testing process. When this happens, reaching the session time limit without completing enough questions to obtain an accurate score is possible.

DET will allow you to take the test again, but before taking the new test, we encourage you to find a secure location with a stable internet connection of at least 2 Mbps download speed and 1 Mbps upload speed. We recommend using a wired ethernet internet connection instead of Wi-Fi or mobile hotspot services.

AFTER THE TEST

- **I took my Duolingo test a week ago; when should I expect my results?**

DET results are usually released within 48 hours of the test. Once your results are released, you will receive a notification from DET, and CMU-Africa will receive your test scores. This does not mean, however, that you will receive your test certificate; CMU-Africa does not share the test results with test takers. Your test scores are solely used for our internal admissions decision process and cannot be shared with any third party.

- **I have more questions. Is there anyone I can talk to?**

You can get support through the DET support team or the Office of Graduate Admissions.
